Education

Sri Dev Suman University	Aug 2022-Mar 2025
Bachelor of Computer Application, Average SCGPA-7.5	Uttarakhand
D.A.V Public School	Till 2020
Intermediate- 74.4%, Matriculation-78.8%	Uttarakhand

Experience

SV Infotech Internship	Jan 12, 2024 – Mar 16, 2024
Intern	Fulltime
<ul style="list-style-type: none">Creating client-side interactivity models while working in the live projects with the hands-on experience in the computer networking, crucial for the server-side program development.Creating projects based on the front- end development and database management system with the help of learning provided by the modules.	

Projects

Banking System Rust (Object Orientated)	January 2024
<ul style="list-style-type: none">Created a analytical model of a banking system for user to determine security and efficient working.This model explores various kernel (OS) based libraries to handle the file systems to predict the output.Synchronous approach is used to provide a step by step process to make it more user friendly.	
Weather App Javascript (Real time)	December 2023
<ul style="list-style-type: none">It is a real time weather app to fetch the data of any particular location by using the Rest API provided by the open weather map and to display it on the web page .Node Js is used for the run time environment to check the out put in very less time.	
Record Insertion & Display Table Php (RDBMS)	November 2023
<ul style="list-style-type: none">Created a record management system to take the information of the user and to display it in the table format. The info of the particular user can be downloaded as an certificate in the pdf format as well.Additional Quality is that user can also store his/her image in the table as the image is stored in the relational database management system by providing a unique id to that image .	
Educational Website Full stack languages	September 2023
<ul style="list-style-type: none">Created a complete website by the reference of Geeksgorgeeks with the complete database management to take store the credentials of the use in the database with the secured hashed algorithms.The content provided in the website is exact as in the geeksforgeeks because the hyperlinks are redirecting the user to the original website.	

Technical Skills

Languages : Java, Rust, Php, MYSQL, HTML5, CSS, Javascript, jQuery, MERN Stack

Developer Tools : VS Code , Xampp Server, Postman API Tester, GitHub

Relevant Course Work

- Data Structures and Algorithms
- Database Management
- Object Orientated programming
- System designing

Involvements
